Resources & Equipment

- Card
- Glue
- Salt
- Paint

INSTRUCTIONS

There are lots of different designs you can make using these materials. How about creating your favourite animal, maybe making a colourful firework or even just writing your name!

1. Draw the outline of your creation using the glue—this is easiest if you have a squeeze bottle but still possible with PVA and spreader
2. Lightly sprinkle the salt to cover the glue and allow to dry. Make sure the glue and salt have dried completely before you start to paint.
3. Carefully paint over the dried salt to reveal a raised paint masterpiece.

And there you have it—your very own wonderful raised salt creation!
