

Arts & Crafts

Did you know?

Motoi Yamamoto is a famous art who works primarily with salt, search his name on google for some incredible masterpieces.

RAISED SALT PAINTING

All you need for this is paper/card, glue, salt and paints! This simple method creates 3D artwork which can be in any design you like. It takes 3 simple steps!

Squeeze glue designs onto your card or paper > Sprinkle with salt > Add Colour

Use your glue to draw a design or picture onto your card or paper.

Carefully sprinkle salt onto cardstock until the glue is thoroughly covered.
Tip to let excess salt fall away. A baking dish or tray helps to contain the salt.

Paint over the top of your raised salt, be careful not to use too much paint - you can always use more if you need to.
